Task:

Competitors have to sculpt on the model's RIGHT hand and use tip/overlay on the model's LEFT hand with Liquid & Powder Acrylic.

All competitors have 75 minutes to do the nail extensions on one hand with free edges in white, maintain a consistent smile line on all five nails. The nail bed should be extended with camouflage acrylic (cover), flowing to a

transparent (pink-transparent) in the cuticle area. Competitors must polish 2 fingers on the model's hand – the thumb and the pinkie with a red cream polish/lacquer. The competitors who chose to compete with one hand only will have 75 minutes to complete the task and will be positioned together in one area on the competition floor. Those who chose to compete with two hands will be asked to stop after the 75th minute, will be given 15 minute break before they start working on the second hand, when they will also have 75 minutes.

Participants may use their own red polish base coat and dry fast top coat, hand lotion and oils for cuticles. They should create a set of competition nails, paying particular attention to the side structure, uniform shape and smile line, which should correspond to the model's fingers and shape of bed nails. The only approved work material is acrylic powder and liquid. Only colorless and natural tips are permitted, white are forbidden. Preparation of the tips before the competition start is prohibited. If such is found, they will be confiscated by the judge. When the participant decides to use tips, he/she must bring a new, closed and unsealed box with tips from the manufacture or 10 separate previously not prepared tips. When participants use forms, all of them have to be together on a roll with an unbroken seal or they can be 20 separate, previously not prepared shapes. The use of e-file is not allowed. Only powder-type acrylic systems and liquid are allowed. The extension of the nail bed must be visible on the underside of the nail, while the remainder of the free edge should be white.

Goal:

Nail enhancements created by competitors should be competition nails with white extensions which should have:

Division 1 – The white extensions should be between 50% - 70% of the nail bed.

Division 2 – The white extensions should be between 80% - 100% of nail bed.

1. Shape	5	The shape of the nails is optional (not set by the Organizer), but has to be the same on all 5 nails.
2. Length	5	The selected length must be proportional: index finger, middle finger and ring finger must be the same length. Pinkie may be 1 mm shorter. Thumb may be 1mm longer. From a side perspective, the top and the bottom edge should be parallel to each other. The lower edge should be consistent with the hair line and should not be thicker than a business card.
4. Apex	5	Viewed from the side, the apex (zone stress) should be placed equally on all 5 nails with an equal amount of product applied to it.
5. Curve C/hair line	5	The curve C must be equal on each nail. Nails should be modeled equally, maintaining hair line on each nail that should not be thicker than the card. Nail tunnel should be between 40-50% of the wheel (where 50% raises the level of difficulty). All nails should have the same tunnel.
6. Surface processing	5	Under the fingernails and in the nail shaft there should not be remainders of glue, acrylic filings or oil residue. The surface should have no visible air bubbles. Are the length and shape matched to the model's hand? If camouflage acrylic (cover) was used, does it match the colour of model's skin? Has the participant created a perfect set of competition nails, matching the above criteria?
